

Swapnil Patil

Full Stack Engineer

+1 (709) 219 0772 | swapnilkpatil96@gmail.com | <https://www.linkedin.com/in/s-k-patil>

Summary

Full Stack Engineer with 5+ years of experience specializing in web applications using Ruby on Rails, Django and React. Expertise in AWS and Azure for cloud optimization, and a proven track record of delivering scalable solutions. Strong leader with experience managing cross-functional teams to enhance project efficiency and reduce costs.

Skills

Programming/ Web Technologies: Python, Ruby, Java, SQL, JavaScript, React, Next.js, C, C++, HTML, CSS, HAML

Libraries/Frameworks: Ruby on Rails, Django, React, Pandas, Jupyter, RSpec

Tools: Git, AWS, Azure, Docker, JIRA, Redis, Sidekiq, Linux, Data Structures

Professional Experience

Freelance Software Engineer, Various – Remote, CA

Feb 2022 – Apr 2024

- Developed and designed 10+ responsive websites with React and Next.js, leading to a 30% increase in client online engagement and user satisfaction
- Implemented efficient ETL processes that reduced data loading time by 40%, improving the accuracy and timeliness of data for client operations and decision-making
- Managed MySQL and PostgreSQL databases for 5 projects, optimized cloud applications on AWS and Azure, reducing operational costs by 25% and improving scalability

Software Engineer, Msys Technologies – Pune, IN

Apr 2020 – Dec 2021

- Engineered data integration solutions for configuration management systems using Ruby, reducing audit time by 40% and streamlining compliance efforts
- Mitigated non-compliance issues by creating Ruby cookbooks to efficiently oversee specific controls, and improving system reliability by 12%
- Deployed and managed applications using Docker and CI/CD pipelines, optimizing AWS and Azure cloud platforms, resulting in a 30% increase in scalability and a 20% cost reduction
- Led the Chef Compliance team to complete critical tasks in a remote environment, training 4 new hires and receiving the Performance Excellence Award for Q3 2021

Associate Software Developer, Allerin Technologies – Mumbai, IN

Jun 2018 – Mar 2020

- Directed the development of web applications using Ruby on Rails, CSS, HAML, and JavaScript, employing TDD and agile methodologies, resulting in a 15% improvement in codebase maintainability
- Enhanced user engagement by 40% through jQuery for DOM manipulation, event handling, and A/B testing, and achieved a 16% boost in customer retention
- Improved data processing efficiency by 17% through SQL optimization, including indexing, partitioning, and query tuning
- Developed and integrated automated testing frameworks using RSpec and Jupyter into CI/CD pipelines, achieving over 95% test coverage and ensuring high code quality

Projects

Responsive Personal Website

Feb 2024

Tools: React, Tailwind CSS, Framer Motion

- Designed a portfolio website using React, Tailwind CSS, and Framer Motion to showcase work and skills
- Integrated dynamic animations and smooth transitions to enhance user interaction and experience

Histopathological Image Analysis for Cancer Diagnosis

May 2023

Tools: Python, TensorFlow, scikit-learn, Jupyter Notebook

- Built a multi-class CNN to diagnose lung and colon cancer from histopathological images with 91.05% accuracy.
- Analysed medical images to classify benign and malignant cases while ensuring data privacy.

Education

Memorial University of Newfoundland – MS in Computer Engineering, GPA 3.63

Oct 2023

Mumbai University – BS in Computer Engineering, GPA 3.12

May 2018
