SUMMARY

Full Stack Engineer with 4+ years of experience delivering scalable web apps using Ruby on Rails, Django, and React. Built forex trading platforms serving thousands daily and automated Chef compliance, reducing the deployment time 40%. Recently designed and optimized ML models using Python and TensorFlow, improving profile matching accuracy by 10-15% and reducing manual reviews by 25%. Led A/B testing to boost model precision and system efficiency by 15%. Delivered 10+ React-based client projects with strict data protection compliance. Strong collaborator focused on fast, reliable solutions.

PROFESSIONAL EXPERIENCE

Full Stack Developer

St John's, Canada

Weevva Systems

05/2025 - Present

- Designed and optimized ML models using Python, TensorFlow, and PyTorch to automate profile matching, improving accuracy and cutting manual reviews by 25%
- Built backend services with FastAPI, PostgreSQL, and GraphQL supporting 5,000 requests per minute with 99.5% uptime
- Implemented A/B testing and stats analysis that validated model improvements leading to a 10% boost in precision and efficiency gains
- Built full-stack apps with React, React Native, and TailwindCSS, ensuring GDPR and data protection compliance
- Created a proprietary AI/ML matching engine that increased match accuracy by 15-20% over baseline, improving successful matches

Software Engineer

Pune, India

Msys Technologies

04/2020 - 12/2021

- Developed data integration solutions using Ruby, reducing audit times by 40% and streamlining compliance processes
- Designed and managed cloud-based applications using Docker and CI/CD pipelines, achieving a 30% increase in scalability and a 20% reduction in operational costs
- Created Ruby cookbooks to oversee security compliance controls, improving system reliability by 12%
- Trained and mentored four new hires in a remote environment, earning the Performance Excellence Award (Q3 2021)

Associate Software Developer

Mumbai, India

Allerin Technologies

06/2018 - 03/2020

- Directed the development of web applications using Ruby on Rails, CSS, HAML, and JavaScript, enhancing codebase maintainability by 15%
- Enhanced the responsive behavior of web pages by utilizing jQuery for DOM manipulation and event handling, implementing A/B testing, resulting in a 40% increase in user engagement and a 16% boost in customer retention
- Increased data processing efficiency by 17% through SQL optimizations, including indexing and query tuning
- Automated testing with RSpec and Jupyter, achieving 95% test coverage, reducing defects, and ensuring high-quality deployments

SKILLS AND COMPETENCIES

- **Programming Technologies:** Python, Ruby, Java, SQL, JavaScript, Next.js, C, C++, HTML, CSS, HAML
- **Libraries/Frameworks:** Ruby on Rails, Django, React, Angular, Jupyter, RSpec
- **Tools:** Git, AWS, Azure, Docker, JIRA, Vite, Redis, Sidekiq, Linux, Data Structures
- **Development Practices:** Test-Driven Development (TDD), Agile Methodologies, CI/CD Pipelines
- **Soft Skills:** Problem-solving, Collaboration, Communication, Adaptability

EDUCATION

Master in Applied Science, Computer Engineering

St John's, Canada

Memorial University of Newfoundland

01/2022 - 10/2023

Bachelor in Engineering, Computer Engineering

Mumbai, India

Mumbai University

06/2014 - 05/2018
